• Design with AI • Design Systems • Information Architecture • Accessibility (WCAG) • End-to-End Product Design

Design Tools: • Figma • Sketch • Adobe Illustrator • Magicpath • Miro

AI & Prototyping: • Lovable • Figma Make • Antigravity AI IDE

Analytics: • Amplitude • Qualtrics • UserTesting • Perplexity • Claude

Development: • React.js • JavaScript • HTML • Tailwind CSS • GitHub

Professional Experience

UI/UX Designer — Newprinthub.com, Pune

May 2024 – Present

- Redesigned the client onboarding flow using design thinking and usability testing, increasing customer retention by 25%.
- Streamlined UI components and rebuilt navigation paths, improving app user retention by 20%.
- Built a scalable Figma component library that removed back-and-forth between design and engineering, helping the team ship 30% faster than sprint estimates.
- Lead end-to-end design for PrintHub, a mobile-first printing platform serving customers across India.

UI/UX Developer — Inrowmek.com, Pune

Oct 2023 – Apr 2024

- Authored design documentation and a reusable Figma design system, cutting design-to-development handoff time by 40%.
- Designed responsive, WCAG-compliant UI components for mobile and web using Sketch and Figma.
- Built intuitive user interfaces for mobile and web applications from concept through developer hand-off.
- Created marketing assets including social media graphics and Adobe Illustrator brand illustrations.

Key Projects

Teamera.net — Collaborative Startup Ecosystem

2025 – 2026

Role: Full-Stack Designer & Developer

- Designed and developed a full-stack web app that helps founders, students, and professionals form startup teams, apply for roles, and collaborate in shared workspaces.
- Architected a 3-tier system using React, Node.js, Express, MongoDB Atlas, JWT authentication, and Socket.io for real-time communication.
- Shipped a role-based application system with a six-state lifecycle, profile portfolios, project discovery, and team workspaces.

PrintHub — Mobile Printing Platform

May 2024 – Present

Role: UI/UX Designer

- Redesigned the full customer journey from document upload to delivery tracking, reducing drop-off and improving task completion.
- Built a modern Figma design system with a Poppins type scale, purple-led palette, and a library of hand-crafted SVG illustrations.

Walkeels.com — Business Website

2023

Role: UI/UX Designer & Frontend Developer

- Designed and developed a responsive one-page business website focused on clarity, lead generation, and brand trust.
- Delivered a mobile-first experience with a consistent visual system, smooth navigation, and an SEO-friendly structure.
